SUPPLEMENTARY REMARKSWashington, D.C.  
October 27, 1999Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

Two errors appear in the remarks filed September 21, 1999. The last five lines of the page should read as follows: It is also clear that Breitenbach is not designed for high voltage but is adapted for high current. Further, Breitenbach does not eliminate or reduce the possibility of corona discharge, see for example column 5, lines 7-18.....

The errors occurred as a result of an inadvertence in attempting to file the amendment before the expiration of the two month extension. The corrections herein are consistent with other comments in the remarks.

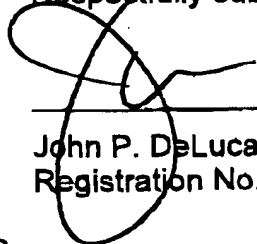

Respectfully submitted,

REMARKS

This amendment is for the purpose for adding a claim in which we believe to be within the scope of the invention.

Respectfully submitted,

John P. DeLuca  
Registration No. 25,505
